#EVERY90MINUTES

Our mission is to bring awareness and innovation to finding a cure for ALS, also known as Lou Gehrig's Disease.

We imagine a world where ALS is a treatable, manageable illness rather than an underfunded, terminal disease that devastates the lives of individuals and their families every 90 minutes.

October 6, 2014

Fairmount Country Club
Chatham, NJ 07928

About the 90 Foundation

Our mission is to support the most promising research to find a cure for ALS.

ALS, or Lou Gehrig's disease, is a rapidly progressive and ultimately fatal disease. ALS robs you of the ability to walk, talk, eat, drink, and breathe, while leaving your fully-functioning mind trapped. There is no known cure, and the few treatment options that exist extend life a short period of time, around 2-3 months. Death usually occurs 2-to-4 years from diagnosis.

Doctors and researchers are leading the charge to find a cure, but are in desperate need of funding.

We created the 90 Foundation, a Texas 501c3, to raise money for research to treat and cure ALS. We are dedicated to making sure that 100% of the money we raise goes directly towards research and are working directly with Houston Methodist Neurological Institute and the ALS Therapy Development Institute to ensure that happens.

About Jay Smith

May 2014, Jay Smith won a Popular Science Invention Award, celebrated his wife's 37th birthday, went indoor skydiving to celebrate his daughter's 7th birthday, and was diagnosed with ALS.

Lou Gehrig famously said during his farewell speech that he was "the luckiest man on the face of the earth." Jay always thought that was just a positive spin on receiving a terminal diagnosis. But he sees now, he has a blessed life. His company, Livid Instruments, just celebrated 10 years in business. He is surrounded by an amazing, large and loving family and has amassed some of the best friends a person could ask for, both old and new. This year he'll celebrate 11 years of marriage to his best friend, Missy Mekosh, and he has two of the greatest little girls (Loghan 7, Peyton 4) that a Dad could ask for. So like Lou, he too feel like the luckiest man alive.

ALS isn't an incurable disease it's an underfunded disease. With proper funding, research, and treatment, the thousands of soldiers, athletes, fathers, mother, sons, and daughters diagnosed with this disease won't have to die with it.

Take this time to reflect on your life and be thankful for what matters most. Please take a moment to help us end this disease. Finding a cure is up to us.

Join us for a day of Golf to help find a cure.

Monday, October 6, 2014

at the

Fairmount Country Club
Chatham, NJ 07928

11:00am Registration/Lunch
1:00pm Shotgun Start
Dinner/Cocktails to follow play
